## We Make Furniture Better

## About Us

RAMS Industries is the leading distributor specializing in the Sales and Marketing of thermoplastic Edgebanding, PUR and EVA Hotmelt Adhesives, and related products to the woodworking industry.

We partner with leading manufacturers to bring woodworkers the latest innovations from stock.

With over 20 years experience in the North American woodworking industry, RAMS Industry offers expertise and experience to select the right Edgebanding and Hotmelt product for any customer application.

# **You Think Specifying Edgebanding is Pretty Straightforward? Consider This!**

## **Delaminating and Cracked Edgebanding**

## Swollen Boards and Chipped Edgebanding

## Bad Color Match

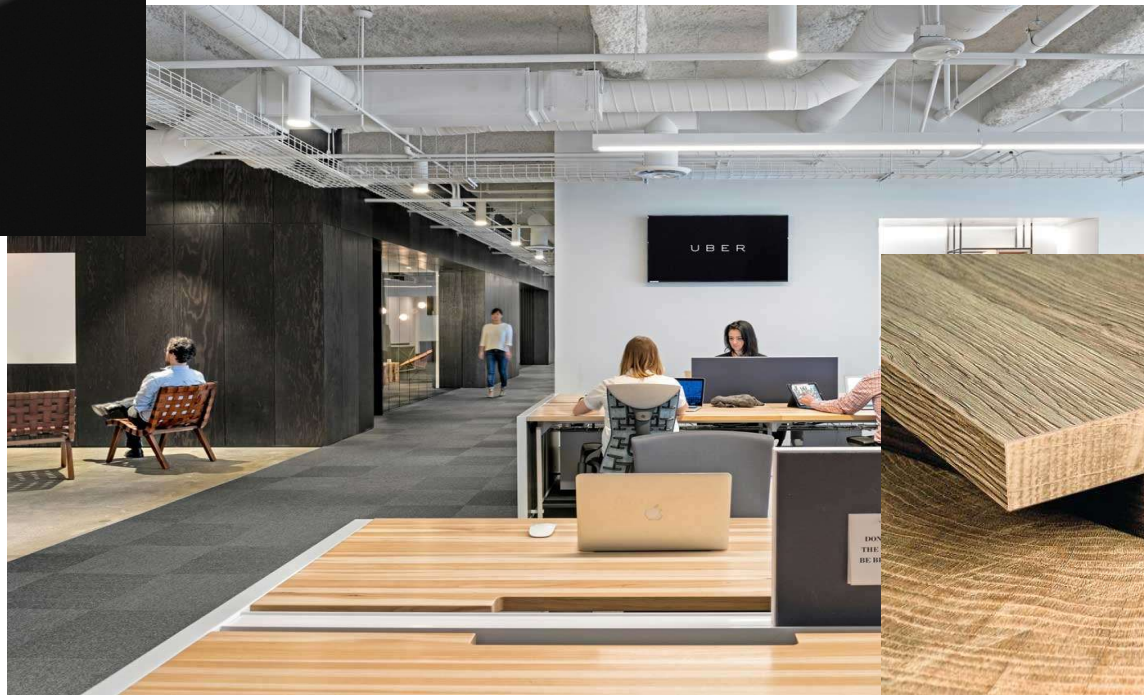

Glass effect

## Edgebanding, A Design Element

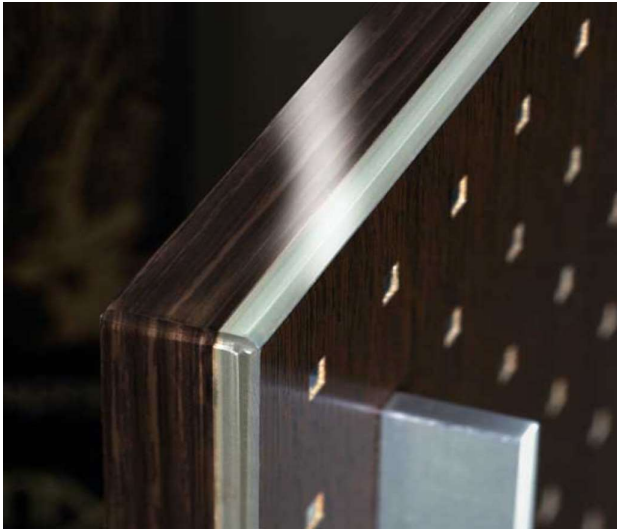

## A Perfect Match of Woodgrain and Texture

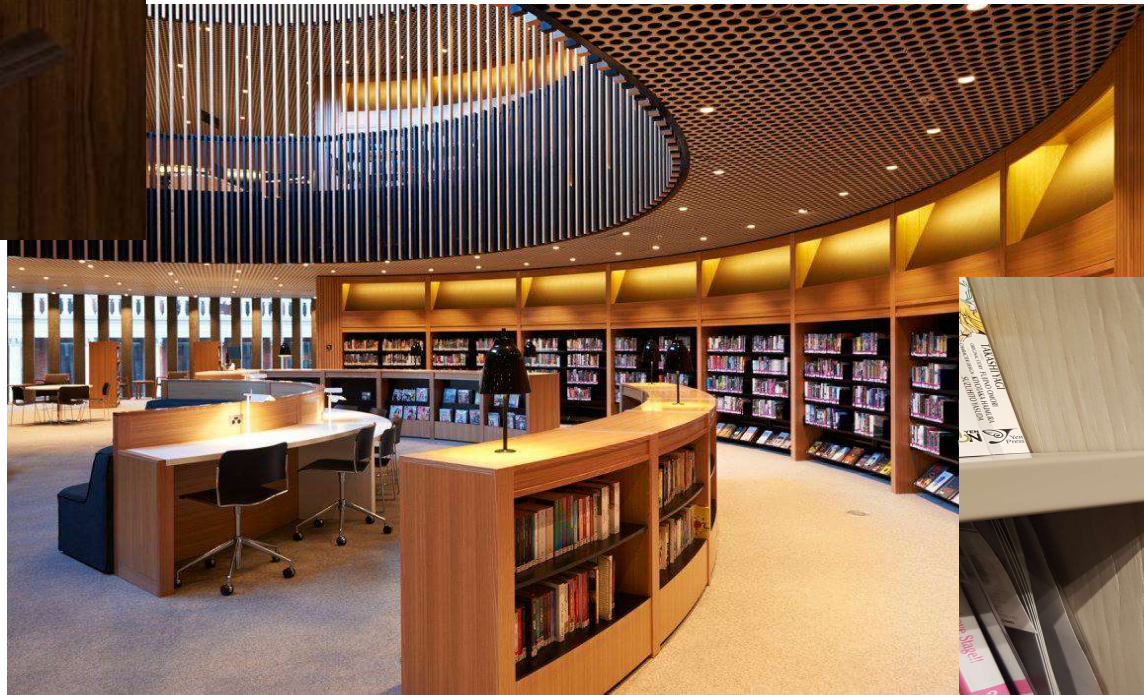

## Complimenting Edgebanding

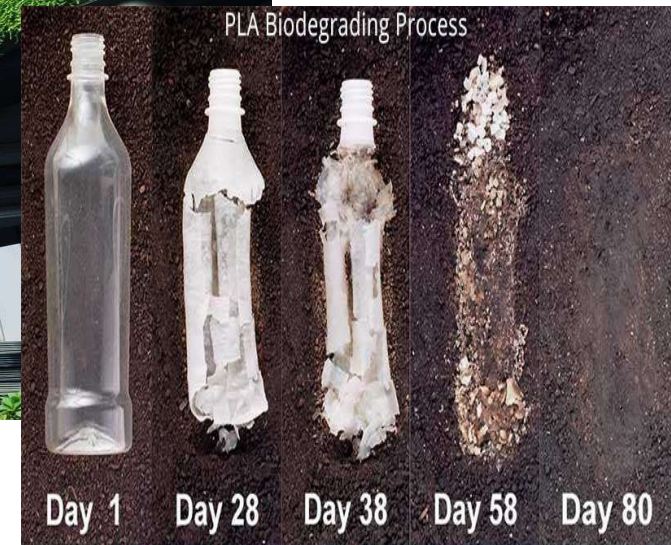

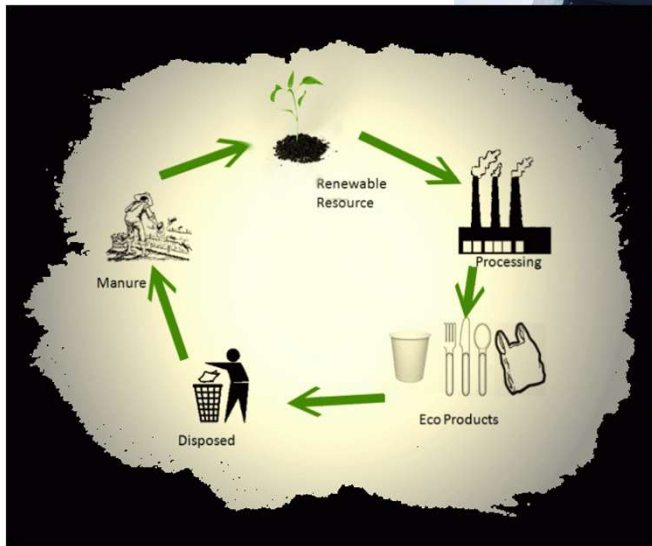

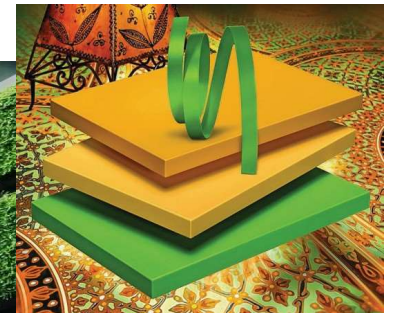

## Thick Edgebanding for Institutional Projects

## Greenguard Certified & Biodegradable Edgebanding

## Why RAMS Industries?

We consult with fabricators and designers to specify the right Edgebanding for an application.

We have over 20 years experience with Edgebanding and Hotmelt Adhesives.

We source products from leading manufacturers who strive on innovation and service.

All our Edgebanding products are Greenguard certified and we offer the only biodegradable Edgebanding in North America, perfectly suitable for LEED projects.

Our Mission: **"We Make Furniture Better"**
